Attention to Detail

Time Managment

PROFILE

I am a computer engineering student. It is my second year at university. I mainly learn mobile development with Swift.

EDUCATION

Sakarya University

Computer Engineering

- GNO: 3,45

Sakarya University

Software Engineering

- GNO: 3,11

PROJECTS

Inviso

- <https://github.com/sametkarakurt/Toyota-Inviso>
- Field data collection app that lets you build, manage, and dispatch your own forms that are used by your field workforce
- I used React Native.

Habit Tracking

- <https://github.com/sametkarakurt/HabitTracking>
- An application for folks who want to keep track of how much they do certain things
- I used SwiftUI.

Moonshot

- <https://github.com/sametkarakurt/Moonshot>
- An application for folks who want to learn information about Apollo projects.
- I used SwiftUI.

Pizza Order

- <https://github.com/sametkarakurt/MVC-OrderPizza>
- A website for folks who want to order pizza.
- I used NodeJS, PostgreSQL, MVC in the project.

VOLUNTEER WORK

MAVIDURAK.IO

Head Of Community

- We organize developer meetings every week. Also we organize webinars per month. I take a role in moderating them.
